Forschung & Lehre; Wissenschaftl. MitarbeiterIn
bei **Ludwig-Maximilians-Universität München,**
**Lehrstuhl für Vergleichende Tropenmedizin
und Parasitologie**

Referenznummer: INTERREG 01 

Eingetragen am

A 2-year postdoctoral position (E13) is available at the Institute for Comparative Tropical Medicine and Parasitology, Ludwig Maximilian University, Munich, Germany.

The successful candidate will conduct research to develop the INTERREG IV project "Ticks and tick-borne diseases in South Bohemia and Bavaria". Specific duties include the planning, execution and publication of high-quality research performing field collection of samples, biological and molecular analysis, as well as assisting with preparation of grant proposals, organization of seminars and workshops and supervision of junior laboratory personnel.

Additional responsibilities include participation in scientific meetings, professional interactions with collaborating partners, other staff and students and to present results to the scientific community and to the general public when appropriate.

The candidate should hold a PhD in Veterinary/Medical sciences, Biology or related areas, with demonstrated hand-on experience on vectors and vector borne pathogens. Additional experience in molecular biology and bioinformatics is an asset.

Applications received before April 30, 2009 will receive full consideration. Review of applications will begin May 4th, but the position will remain open until filled.

Women and handicapped people are encouraged to apply.

Interested candidates should send an application letter outlining the interest, Curriculum vitae, and list of two referees with complete contact information to Prof. Dr. Kurt Pfister (e-mail: sekretariat@tropa.vetmed.uni-muenchen.de).
